"Let us be thankful, for if we didn't learn a lot today, at least we learned a little, and if we didn't learn a little, at least we didn't get sick, and if we got sick, at least we didn't die, so let us be thankful."

Siddhartha Gautama
Indian spiritual teacher, founder of
Buddhism (563-483)

Some Early Questions . . .

One foot in the present and one foot in the future?

Pleasure versus happiness?

Positive self-talk?

Daily breath-based relaxation practice?

Are you doing what you really want to do?

Can small changes make big differences?

What is Stress?

An everyday fact of life? A necessary stimulus? Unavoidable? Unmanageable?

The result of change: Comfort zone shift?

Both negative (distress) and positive (eustress)?

A biological reaction: Adrenaline, cortisol.

A cognitive reaction: Related to thinking.

An emotional reaction: Related to feelings.

Where Do You Feel Stress?

Your neck and shoulders?

Your lower back?

Your stomach?

Your teeth?

Headaches? Muscle aches?

Your energy level?

Your interactions with people?

Professional Stressmakers

- Workload / Work schedule.
- Interactions with co-workers, bosses, clients, customers, taxpayers.

Why Won't Employees Use EAP Services?

- Stigma about reaching out for help.
- Fear of peers or bosses finding out.
- Concerns about confidentiality.
- Reporting concerns.
- "Rubber Gun Squad" concerns.
- Don't now how to access the resource.
- No knowledge of the existence.

People Or Resources That Can Help Me Cope . . .

- Clinical referral from your doctor or healthcare plan.
- Referral from a trusted friend.
- Pastoral counseling.
- Online therapy via Skype?
- Support groups.

The "B.R.E.A.D.S." Stress "Cure"

Breathe: Slow and deep.

Relax your Body: The best results come from a 10-minute session, at least once per day.

Exercise: At least 30 minutes, three to five days a week.

Attitude: Relentlessly positive.

Diet: Go light on feel-good foods, manage your blood sugar throughout the day.

Sleep: Develop pre-sleep rituals; try to get 7 to 8 hours.

Breathing

Yoga

Meditation

Self-Hypnosis

Guided imagery

Focused relaxation

Focus on the pauses.

Relaxation

Start once per day for 10 minutes, in a place that's safe, comfortable, and quiet.

Try to get up to 20 minutes each day.

Meditation Benefits

Lower blood pressure and pulse rate.

Lowered metabolism.

You control your oxygen and CO₂ use.

You boost your immune system.

You stimulate anti-aging function.

You fight off disease.

Exercise

Walk at least 30 minutes per day, at least three to five days per week.

Attitude

Relentlessly positive.

Find the "Zen Moments"; the good in every situation, no matter how small or how brief.

Stop your negative self-talk.

Diet

Proteins early, carbs mid-day, go to bed a little hungry.

Five to six good days, one or two cheat day.

Moderate use of caffeine, alcohol, fats, and sugars.

Sleep

Program your sleep in 90-minute cycles.

Develop pre-sleep rituals.

Use the bedroom for what it was designed for.

Cool, dark, quiet (white noise?), peaceful.

Minimize blue light exposure.

Be careful with pills.

Don't worry about occasional insomnia.
